

SHC HSW-30

FOAM STICKS FOR WATER REMOVAL FROM GAS WELLS

PRODUCT DESCRIPTION COLOR - WHITE

SHC HSW-30 is a white hard stick contained in a split spiral cardboard disposable tube.

PRODUCT BENEFITS

This stick was formulated to remove high chloride water from wells with low bottom pressure. It has been proven to be very effective in the Sonora, TX area. This stick provides a light, stable foam. It has proven to be very effective in every producing well in Oklahoma, Kansas, Texas, Wyoming and other places to numerous to mention. The soft texture of this stick makes it soluble and effective.

APPLICATION

Remove disposable tube and inject stick down tubing. Shut in time is not suggested with this product due to the nature of the solubility. Experimentation is suggested.
